Techno Main Salt Lake, Kolkata

2022-2026

Bachelor of Technology in Information Technology

PROJECTS

Giggles & Growth - Infant Care Web App

- Developed a MERN stack web application to assist parents in managing their child's healthcare. The platform allows parents to log in securely and view recommended vaccines based on their child's age.
- Integrated additional features, including informative blogs on child nutrition and care, along with links to external shopping websites for purchasing child-related products, providing a comprehensive parenting resource.
- Utilized vaccine guidelines from the World Health Organization (WHO) to ensure accuracy and reliability.

Upskill Educational Website

- Developed an interactive online learning platform enabling learners to access courses and instructors to create and manage content efficiently.
- Implemented user authentication, course management system, and a responsive UI using **HTML, CSS, JavaScript, and React**.
- Designed and optimized the backend with Node.js and Express, integrating a PostgreSQL database for secure data storage and retrieval.

Netflix Clone Webapp

- An e-commerce platform replicating Netflix functionalities for purchasing eyewear. Users can browse a wide range of products, check frames, and place orders seamlessly.
- Features include user to see movies names and enhance user convenience.

Skill Summary

- **Programming Languages:** HTML, CSS, JavaScript, Java, Python, C
- **Technologies:** React, Next.js, Node.js, Express.js, MERN Stack, Data Structure & Algo.
- **Databases:** MongoDB, MySQL
- **Soft Skills:** Communication, Adaptive, Event Management, Leadership.

Certifications

- **IBM:** Journey to Cloud: Envisioning Your Solution
- **Udemy:** Python Complete Course for Python Beginners
- **Udemy:** Web Development Bootcamp with HTML CSS PHP MySQL WordPress
